

□

2. Create some exit passes based on addition to 20. Make them World Cup themed.

- a. Create an exit pass with a soccer ball and the numbers 1-20 written around it. Have the student tally up the total amount of numbers to equal 20.
- b. Create an exit pass with a soccer field, and the numbers 1-20 written on the field. Have the student select four numbers and create equations to make up the total of 20.
- c. Create an exit pass with six flags, with each flag representing a different country. Write the numbers 1-20 on each flag. Have the student select two flags and add the numbers together to make 20.
- d. Create an exit pass with a pie chart, with each slice representing a different country. Write the numbers 1-20 on each slice. Have the student select two slices and add the numbers together to make 20.
