Write a first person description of a castle for year 4. include it's size, shape, who lives there and what buildings you can find

I'm standing before a grand castle, it's towering walls reaching up towards the sky. It's quite large, with four tall towers at each corner, and a deep moat surrounding it. It's quite a unique looking castle with thick walls and a lovely courtyard in the center. Inside the walls live a King, his Queen and their four loyal knights.

The King and Queen have their own rooms, plus a beautiful garden room, a great hall and a magnificent dining room. There's also a kitchen, storage rooms, stables, and a chapel where the King and Queen say their prayers. Inside the castle walls, you will also find soldiers quarters, guard rooms and a restricted area.

Outside the castle, one will find a number of small buildings - a bakery, a market and some shops. The castle is protected by a great wooden gate, kept closed at all times, with a drawbridge for when visitors are expected.

I love visiting this castle with its grand history and its beautiful surroundings. Each time I visit I learn a bit more about the castle and the people who live inside its walls.
